## Colorado Medicaid Health Plan Choices

### What are my health plan choices?

- ▶ There are two ways to receive your Medicaid benefits: through regular Medicaid or through a Medicaid health plan. Both offer the same basic medical benefits, but the choices of providers and services may be different.
- ▶ In regular Medicaid, you must find your own doctors and other providers.
- ▶ Medicaid health plans help you find providers and offer additional benefits. See inside this brochure for a list of the plans and their benefits.
